## Englisch: Water pollution – 5. HAK

The screenshot shows a Firefox browser window with the address bar displaying <http://voicethread.com/?u1490065.b1605312.8485403>. The page title is "waterpollution (3/9)". The main content is a presentation slide titled "Types of water pollution" with a blue header and a white body. The slide lists three types of water pollution:

- **Microbiological water pollution** – in the water are bad microorganisms
- **Suspended Matter** – particles come to the bottom of rivers and lakes and cause thick silt
- **Chemical water pollution** – throw industry and agriculture chemicals get in the water

On the left side of the slide, there is a small icon of a speaker and a name tag that says "Lukas". At the bottom of the slide, there is a "comment" button and navigation arrows. The browser's taskbar at the bottom shows several open applications: Securitylayer, ELProjektendbericht..., Screenshots\_VoiceT..., Microsoft Excel - S..., and VoiceThread - Grou... The system clock in the bottom right corner shows 21:10.

The main content is a presentation slide titled "Danger of water pollution" with a blue header and a white body. The slide lists three categories of danger:

- **Health**  
come together with polluted water → bad for your health
  - Direct: drink the water
  - Indirect: eat fish from this water
- **Economy**  
expensive to treat the water and to prevent the pollution
  - E.g. prevention is cheaper than cleaning up polluted water
- **Environment**
  - E.g. Heavy metals are toxic to fish and affect the rest of the food chain

*Teach your kids*

Teach your kids  
If you have children, please take them out into the woods as far away from human activity as possible and get them to sit and just listen for a while. It may not have much effect on them immediately, but may they remember. Also do it just for yourself from time to time.
